### Behaviour Information Form

---

Swan River Recreation strives to provide an inclusive and accommodating experience for all participants.

By giving us additional information about your child prior to their registered program beginning, we can work together to ensure your child has a positive recreation experience. While the information you choose to share is confidential, it will be shared among Swan River Recreation program staff who are working directly with your child. The information you provide is meant to ensure recreation staff are knowledgeable prior to the first day of the program and can plan accordingly.

We encourage you to provide as much detail as possible which will allow us to educate our staff. The information you provide will assist with program modifications to better accommodate all needs to ensure that all children are included. The information will also allow staff to better address conflict, should it arise, and to better understand behaviours as they arise.

Information you may wish to share:

- Tips for calming your child down or helping them to focus.
- A medical diagnosis.
- Recent life events that may affect your child's well-being.
- Your child's likes/dislikes.
- Colour or light sensitivities.
- Any other information you feel is relevant.

*Note: Swan River Recreation is not able to provide 1-on-1 support for children participating in our programs currently.*

*If your child requires 1-on-1 support, and you are able to have an adult family member, friend, support-worker, or aide attend with your child, in most cases we are able to accommodate this request. Please communicate this request with Swan River Recreation prior to registration.*

If you have any questions, or require additional information, please contact us:
